

EZ Cut

A New Generation of General Purpose Bandsaw Blades from Bahco Milford

Sandflex® Easy-Cut™

Simple solutions, sharper thinking

**Nobody has
made sawing
so easy!**

EZ Cut – A New Generation of General Purpose Bandsaw Blades from Bahco Milford

EZ Cut – We have named our new generation of general purpose band saw blades EZ Cut for a very simple reason; it really does make metal cutting easy.

Whether you're cutting ferrous or non-ferrous materials, solids, pipes, profiles or bundles, EZ Cut is the blade for you. No longer need you worry about teeth per inch, tooth type or set, just choose the blade according to your work-piece size - small, medium or large. It really is that easy.

Why is it so easy? We have developed a unique, innovative tooth design which allows a much wider operating range than a conventional tooth type. This means that the same blade will cut a much wider range of materials and shapes;

- Saving you money
- Saving you time

Easy to Cut

Our patented revolutionary tooth design enables EZ Cut to cut a whole variety of materials, including:

- Mild steel, Stainless Steel and Tool Steel
- Non-ferrous materials, including aluminium, copper, brass and even plastics

And also many different shapes:

all without changing the blade!

But Easy-Cut's strength is not just in its versatility, the new tooth design means it is strong and resistant to tooth stripping. M42 tooth tips give good heat resistance and ensure maximum performance.

Easy to Order

There is no need to know what type of machine you use, what material you are cutting or what shape the material is. All we need to know is the blade length, the thickness and whether you are cutting Small (S), Medium (M) or Large (L) work-pieces (see table below).

It couldn't be easier! EZ Cut.

EZ Cut – Cutting Data

Order Code	Blade Size		Material Size											
	Width x Thickness MM	INCHES	1mm .04"	2mm .08"	3mm 1/8"	5mm 3/16"	10mm 3/8"	20mm 3/4"	30mm 1-1/8"	40mm 1-1/2"	50mm 2"	75mm 3"	100mm 4"	150mm 6"
3857-13-0.6-EZ-S	13 x 0.6	1/2 x .025	Small											
3857-13-0.6-EZ-M	13 x 0.6	1/2 x .025	Medium											
3857-13-0.6-EZ-L	13 x 0.6	1/2 x .025	Large											
3857-20-0.9-EZ-S	20 x 0.9	3/4 x .035	Small											
3857-20-0.9-EZ-M	20 x 0.9	3/4 x .035	Medium											
3857-20-0.9-EZ-L	20 x 0.9	3/4 x .035	Large											
3857-27-0.9-EZ-S	27 x 0.9	1 x .035	Small											
3857-27-0.9-EZ-M	27 x 0.9	1 x .035	Medium											
3857-27-0.9-EZ-L	27 x 0.9	1 x .035	Large											
3857-34-1.1-EZ-S	34 x 1.1	1-1/4 x .042	Small											
3857-34-1.1-EZ-M	34 x 1.1	1-1/4 x .042	Medium											
3857-34-1.1-EZ-L	34 x 1.1	1-1/4 x .042	Large											

Within any size range

Small = Good surface finish

Medium = Good band life

Large = Speed of cut

- Easy blade selection
- No need for TPI choice
- Wider operating range than conventional blades
- Simply choose material size and blade size
- Unique, innovative patented tooth design
- Cuts mild steel, stainless steel, tool steel and non-ferrous materials including plastics
- Easy to order
- Available through our Worldwide Distribution Network
